appliances

## What will you do if your electrical goods break down?

AXA Domestic Multi-Appliance Warranty Cover

Be Life Confident

If you'd like them fixed or replaced as soon as possible, please read on...

*This policy will provide you with assistance/help with repair bills for broken down appliances. If an insured item cannot be repaired then we will arrange for you to be provided with a new one\*<sup>3</sup>.*

### **Here's how it works**

---

Traditional home insurance does not normally include breakdown cover on your electrical household items (such as washing machines or TV's). That's where the AXA Domestic Multi-Appliance Warranty cover comes in.

For one fixed monthly fee, we will cover 5 appliances from the following:

- All kitchen goods\*<sup>2</sup> like washing machines, dishwashers, fridges, freezers, tumblers, microwaves and vacuum cleaners
- All televisions\*<sup>2</sup>
- DVD, audio systems and VCR's

As long as they are less than 8 years old, we will arrange for our approved, qualified repairers to fix your appliance if it suffers a breakdown. If it can't be fixed, we'll replace it for free. That's right. It costs you nothing other than the amount you pay each month.

Not only do you get a working appliance again, you will only have to make one phone call before leaving us to do the rest. We make most of our first visits within 24 hours and all within 48 hours (subject to your availability). Most kitchen appliances can be repaired at the first visit and regardless of the brand or the model\*<sup>4</sup> – we won't leave you hanging around. If we can't fix your appliance, we'll give you a new one\*<sup>5</sup> with minimal questions asked and no depreciation clauses.

## **Sounds expensive?**

---

Not at all. There is no big upfront payment and you only pay one month in advance, so you won't be out of pocket if you decide that it's not for you in the future.

You can pay monthly by interest free direct debit and cancel at any time you like. You can't say fairer than that. And if you change your mind in the first 14 days, you won't have to pay at all (unless you've made a claim).

## **But surely this is all covered by home insurance?**

---

No. Traditional home insurance does not normally include breakdown cover on your electrical goods. That's where the AXA warranty comes in.

\* For £9.99 per month we can cover all kitchen goods\*\* like washing machines, dishwashers, fridges, freezers, tumblers, microwaves and vacuum cleaners

- All televisions\*\*
- DVD, audio systems and VCR's

All items must be less than 8 years old.

\*\* The following items are excluded from the £9.99 offer: Plasma and LCD Televisions, American Style Fridge Freezers, Range Style Gas & Electric Cookers and Combined Washer/Dryers. However, we can include these items for an additional premium.

\*\* Terms and conditions apply. A copy of the policy wording is available on request.

\*\* Any item purchased outside of the United Kingdom is not eligible for cover.

\*\* Where a replacement is required, we will replace it with an item available in the UK of similar quality and specification.

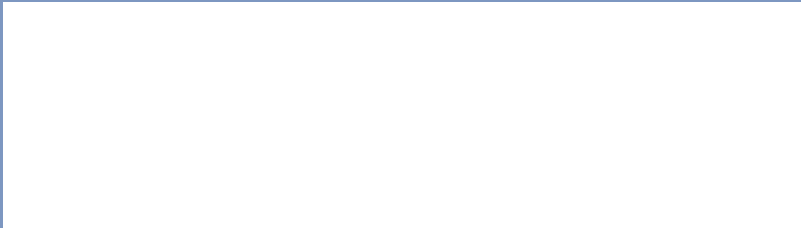

## **AXA's warranty is excellent value for money AND easy to use**

---

To book a repair you only need to make one phone call and you won't have to wait around for anyone to call you back. So next time a salesperson tries to sell you an extended warranty, you can say 'no thanks, when the manufacturer's guarantee runs out, I've got it covered by AXA'.

**AXA warranty. Giving you peace of mind, at a price that's fair.**
